ABOUT ME

I am very curious about Machine Learning, Data Science and Data Mining. I read many documents on these topics and make my final thesis about data mining. After I graduated from my school, I want to work as a data scientist or data analyst and want to learn many new things. Moreover, I always eager to learn as many things as possible in every topic that I wonder.

EXPERIENCES

Project Engineer | TRMOTOR

01.2024 -

Ankara, Turkey

- Manage Projects with Software Capabilities

PLM Software Engineer | TAI

09.2021 - 01.2024

Ankara, Turkey

- Managing Product Lifecycle with 3DExperience PLM Software

Long Term Intern | Probiz Software

06.2021 - 08.2021

Ankara, Turkey

- Making and testing BPM systems

Graduation Project | TAI

11.2020 - 06.2021

Ankara, Turkey

- Long term demand forecasting with Machine Learning and statistical models. The aim is to prove that Ensemble Models are better than most of the complex algorithms.

Summer Intern | TAI

06.2020 - 08.2020

Ankara, Turkey

- Production planning intern

Candidate Engineer | TAI

11.2019 - 03.2020

Ankara, Turkey

- Production planning intern
- Digital and industrial transformation engineering intern
- Continuous improvement intern

EDUCATION

Industrial Engineering - Master's Degree | [Hacettepe University](#)

 08.2022 -

 Ankara, Turkey

- GPA:

Industrial Engineering - Bachelors Degree | [Gazi University](#)

 09.2016 - 08.2021

 Ankara, Turkey

- GPA: 3,65
- Graduation Rank: 3

SKILLS

Python

IBM SPSS Statistics

ARENA Simulation

Microsoft Office
